Madrid, *October* 11. *N. S.*

ON the 3d Instant arrived here Don *Martin d'Estreere*, with the Treaty of Peace concluded at *Ryswicke* between the Catholick and most Christian Kings; And on the 7th the Ratifications thereof were sent back to *Holland*: The same Express brought an account of the Great Victory obtain'd lately by the Emperor's Forces over the Turks in *Hungary*. On the 6th their Catholick Majesties went to the Church of *Nostre Dame d' Atocha*, and were present at the singing of *Te Deum* for the Conclusion of the Peace, and by publick Order here have been Illuminations and other Rejoycings for 3 Nights together. The Duke *de Montalto*, according to the King's Command for his retiring 20 Miles from this place, is gone to his House at *Alba*. The Letters from *Cadiz* of the 30th past confirm the departure of the English and Dutch Convoy on the 26th of the same Month, for *England*. There is a Report that the Moors have raised the Siege of *Ceuta*.

Cracow, *Oct.* 10. Since the breaking up of the Dyet here, which concluded very much to the King's Satisfaction, the Forces that lay near this place are marched towards *Warsaw*, and the King intends to follow them very soon; In the mean time his Troops that served in *Hungary* this Summer, are coming this way; and the Crown-General stays only for orders to march with all or part of the Forces of *Poland*; Here has been a talk of the *Tartars* drawing together near *Caminiec*, with a design to make an Incursion into the Frontier Provinces of the Kingdom; but the last Letters from *Lemberg* making no mention of any such advice, we have reason to look upon it, as a groundless report designedly spread abroad by our Enemies.

Warsaw, *Oct.* 14. The Gentlemen of the *Rokotz* or Confederacy, come in but slowly; The 10th Instant was, by the Summons the Primate sent out, appointed for their meeting in *Lower Poland*, at a place called *Lenzits*, and as yet not above 500 are said to be assembled there; The Primate with several of the Nobility, who are with him at his Castle of *Lowitz*, intend to come hither to morrow; Some say they are to meet other Gentlemen here, and consult together what further resolutions to take; and others report that they will repair to *Dantzicke* to wait upon the Prince of *Conty*; At the same time Prince *Sapieha* Great General of *Lithuania* labours all he can to promote the Prince of *Conty*'s Interest in that Duchy; He has sent 6 Troops or Squadrons of Horse to his assistance; and promises these shall be followed by a much greater Body, but expects before they march a great Sum of Money, and should he receive it, 'tis probable the Moscovites will be ready to give such an allarm on that side, as may oblige these Troops to stay at home. The King's Forces are in the mean time on their march hither from *Cracow*, being about 7 or 8000 Men; Ten thousand more are coming from *Hungary*, and other Troops from his Territories in *Germany*; The Magistrates of this City intend to receive the King at his arrival here with all the Honour and Respect they can, and are making preparations for that purpose.

Dantzicke, *Oct.* 19. The Pr of *Conty* comes every day a-shore, and has had this week several meetings at the Convent of *Oliva* with the Gentlemen that are sent to him from *Poland* and *Lithuania*; Prince *Sapieha* promises to send 20000 Men to his assistance, provided he be supplied with the Money he wants for this Service; The Prince of *Conty* sent him a good Sum yesterday, and another to his Friends in *Poland*, who 'twas thought would have appeared by this time in *Prussia*, in a sufficient Body to receive and conduct him to *Marienbourg*, but as yet they are not assembled in any considerable number, and the Saxon Forces that are marching this way, and are expected in our Neighbourhood to morrow or the day following, will now in all likelihood hinder their meeting together in these parts.

Vienna, *Oct.* 16. The Imperial Army in *Hungary* is separated; And Prince *Eugene* of *Savoy* went the 5th from the Camp at *Sentova*, to view the Troops that are to march into *Bosnia*, at their Rendezvous at *Brod*; They will make together a Body of 6 or 7000 Men, and we may expect a very good account of their Expedition. The Governor of *Peter-Warad'n* has writ to this Court, that the Grand Signior and new Grand Vizier are for certain gone back towards *Adrianople*, having left strict Orders with the Bassa of *Belgrade*, to take care that *Temeswaer* be supplied with all things necessary for its defence. The Saxon Forces that served in the Imperial Army this Summer, march to *Poland* with all the diligence possible, and orders are sent from hence to furnish them with Wagons and what else they may want by the way.

Frankfort, *Oct.* 23. The German Forces are marching to their Quarters. The Artillery this City furnished for the Service of the Imperial Army, are come back to this place. The Magazine of Hay at *Philipsburg* was burnt some days ago.

Paris, *Oct.* 25. On the 23th Instant the Peace with His Majesty *William* the Third King of *Great Britain*, and the States-General of the United Provinces was Proclaimed in the usual Places of this City by the Heralds at Arms, accompanied by the Lieutenant-General of the Police with his Officers, and the Provost of Merchants and other Officers of the Town-house, with the accustomed Ceremonies; And at Night the Streets were filled with Bonfires, and there were Illuminations, and great Rejoycing. The Peace with *Spain* will be likewise Published, when as an account is come of the Ratifications being Exchanged; And *Te Deum* will be Sung in the Great Church of this City, by way of Thanksgiving for the

Peace,
